Enforcement of your claims

In accordance to our motto "Thinking outside the box- New ways to become more successful.", HSP understands dispute resolution comprehensive and radical. The aim is to avoid and to solve conflicts. HSP takes this to include not only the traditional methods of the enforcement of legal claims but also other alternative methods of dispute resolutions.

The holistic approach of HSP ideally starts before the emergence of a conflict, and is focused on preventive advice. This includes a performance-based risk management and the ability to engage effectively and goal-oriented in advance of a forthcoming conflict.

DISPUTE RESOLUTION- PRINCIPLE AREAS OF ACTIVITIES

PRINCIPLE AREAS OF ACTIVITIES OF THE DISPUTE RESOLUTION TEAM OF HSP

- Comprehensive risk management
- Ongoing advice in connection with forthcoming and already existing conflicts
- Settlement of disputes
- Litigation before courts and authorities
- National and international arbitration procedures

HSP works globally and has access to a national and international network, which allows for effective representation, sometimes in different jurisdictions at the same time. HSP coordinates the cooperation among independent and government experts and lawyers, which leads to a professional obtaining of evidence.

DISPUTE RESOLUTION AND KNOW-HOW

HSP has decades of know-how in achieving conflict resolutions. The dispute-resolution team is lead by experienced litigators. HSP's internal and external network makes it possible to solve problems strategically and adopt new approaches according to the motto "Thinking outside the box".

The early and comprehensive approach to dispute resolution has highest priority for HSP. Aside from the legal know-how, this also includes industry expertise and the ability to identify complex legal contexts. The know-how of the dispute resolution team of HSP is seen in particular in following principle areas of activities:

- Enforcement/Defence of indemnity and warranty claims
